

INDIVIDUAL MAJOR – FOUR-YEAR COURSE GRID FOR PROPOSAL

Starting with your first college semester, fill in this plan for completing the courses in your individual major and your GE requirements*. Mark any major courses you have already taken. This plan may be adjusted later, but should show now:

- a) that you can accomplish all your major and other requirements in your remaining semesters, and
- b) the rational sequence in which you plan to take the remaining courses in your major.

Therefore, decide which courses should be taken before, or in conjunction with, which others. Show any planned off-campus study, and include any planned summer experiences between the academic year blocks.
