

Subcommittee Meeting Summaries: October 26 – October 30

Immediate Action Subcommittee – October 28

During the Immediate Action subcommittee's 10/28/20 meeting we spoke with Bruce King about the antiracism training we hope to see on campus soon. We touched base on what he and his council have been doing, what some of the next big steps with the training will be, as well as things we as a Task Force can do to support these initiatives.

Staff Concerns Subcommittee – October 28

We reviewed the committee description from the website and suggested some changes. We decided to send out an invite to other staff to join our committee sooner rather than later and continue to meet over breaks and Interim. We identified a few people to help assist in research on DEI efforts at other institutions.

Liaison Subcommittee

The Liaison Subcommittee met asynchronously this week. Our discussions focused on mostly checking in about ongoing actions including starting conversations with SGA/STAR/TIITE and the BIPOC Affinity Group. We focused mainly on wrapping up ongoing old business to prepare for the possible adoption of a new immediate action item.
