

## **Subcommittee Meeting Summaries: January 25 – January 29, 2021**

### **Student Membership Subcommittee – January 26**

Today we discussed what our plans were for recruitment for next semester and the frequency of our student information meetings in the coming months. We have not settled on a final recruitment plan, but we think it could be helpful to find a way to collaborate with other organizations that focus on structural racism so students can fully understand our differences in missions and structure. We also are planning on doing monthly student info meetings instead of bi-monthly, though this may change due to student interest.
